# Scrambled Eggs

Born individuals
Unique talents
The school teachers
Make us follow leaders
Now I'm fighting groupthink

With a little web
You are specialist
It`s within your features
Throw away your future
Universe of shills

What's around forever
Sure is relevant
Now you assume
They've been on the moon
I like brainwash schoolbooks

The dominant minority
Owning half of everything
Creating media brain jail
Expensive but effective
See the Georgia Guide Stones

Drills come as real events
Crisis actors shed no tear
Blood flowing upwards
Scripted trials on TV
This is not a doomed place

Gender mainstreaming
Same sex marriage
Not birthing offspring
No family unit
Everyone's singled out

Crowded cities make no sense
We get into tension
Think body cell communication
The extra eaters make us sick
That's all folks!
